

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

Hello,

It has come to my attention that the commission is considering a change to the manner in which USF fees are calculated. I wish to voice my opposition to this plan.

Under the flat fee or numbers-based plan you are considering, people like me who make few long distance calls would pay the same as people or businesses that make many calls. I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers.

I'm sure you're aware that the U.S. is on the verge of an upswing in consumer prices across the board due to extended skyrocketing fuel costs please do not add to this burden with an unfair tax advantage to one group of phone users

I urge you to keep the USF fair, and adopt the Fair Share Plan.
Thank you for your time
